HANS P. KIEFER

**Principal
Restoration Architect
Historic Preservation Specialist
Life Safety Evaluation Consultant**

EDUCATION

University of Illinois at Chicago

Bachelor of Architecture - Building Sciences Option | 1991
Minor in History of Architecture and Art | 1991

EXPERIENCE

Since joining KGH in 1995, Mr. Kiefer has been involved in numerous building types throughout the Chicago area, including single family residences, low and high-rise buildings, as well as plaza and garage structures. These building types include both historic and non-historic structures. He has specialized in the investigation, repair and restoration of building facades, which include concrete and steel construction as well as masonry facades, which include terra cotta, granite, limestone and marble cladding. He has also performed evaluations and retrofits of roofing membrane systems, for both conventional and elastomeric based material systems, as well as the investigation, analysis and repair of distressed parking garages and other structural systems. His associated experience at KGH has resulted in the development of repair programs and associated repair documents and specifications, as well as contract administration and field observation services to review the status of various repair projects in progress.
